

University of South Florida - Polytechnic
Energy Production Systems Engineering Course – EIN 4933, 6936
Spring Semester 2012 – Survey

Tom Blair - Instructor
(Survey is voluntary & anonymous)

- 1) The information provided will be helpful to me in my future career.
 Strongly Agree Agree Disagree Strongly Disagree
- 2) The instructor was able to present the information clearly and completely.
 Strongly Agree Agree Disagree Strongly Disagree
- 3) I would recommend this course to other students interested in powerplant engineering.
 Strongly Agree Agree Disagree Strongly Disagree
- 4) The facilities / services provided for the class (including APEX) were adequate.
 Strongly Agree Agree Disagree Strongly Disagree
- 5) The class website was helpful in providing needed information.
 Strongly Agree Agree Disagree Strongly Disagree
- 6) The slide presentations were a useful resource.
 Strongly Agree Agree Disagree Strongly Disagree
- 7) The time provided for exams was adequate for the material covered during exam.
 Strongly Agree Agree Disagree Strongly Disagree
- 8) The first powerplant tour was helpful in understanding powerplant plant equipment & systems.
 Strongly Agree Agree Disagree Strongly Disagree
- 9) The second powerplant tour was helpful in understanding powerplant equipment & systems.
 Strongly Agree Agree Disagree Strongly Disagree
- 10) The text book adequately covered the material for the class.
 Strongly Agree Agree Disagree Strongly Disagree
- 11) The homework assignments adequately prepared me for the exams.
 Strongly Agree Agree Disagree Strongly Disagree
- 12) The class project was organized well and provided me the opportunity to learn more about a specific engineering topic in Energy Production Systems.
 Strongly Agree Agree Disagree Strongly Disagree
